## DELIVERING RESULTS

At Brilliant Smiles, it's important you feel comfortable with our team and the services we offer. Using a biological approach, Dr. Neal believes strongly in education to prevent oral health problems before they occur. To that end, we provide you with various procedure options and teach you how to maintain oral health through preventative care. Together, we're working toward beautiful smiles that are healthy ones, too.

Dr. Neal received his undergraduate degree from Chadron State College in 1999 and went on to the University of Nebraska Medical Center-College of Dentistry where he became a Doctor of Dental Surgery in 2003. He and his staff are committed to ongoing education as well as ensuring that the office is equipped with the latest technology.
